

City Map

Neighbourhoods of Madrid, coloured by population density.

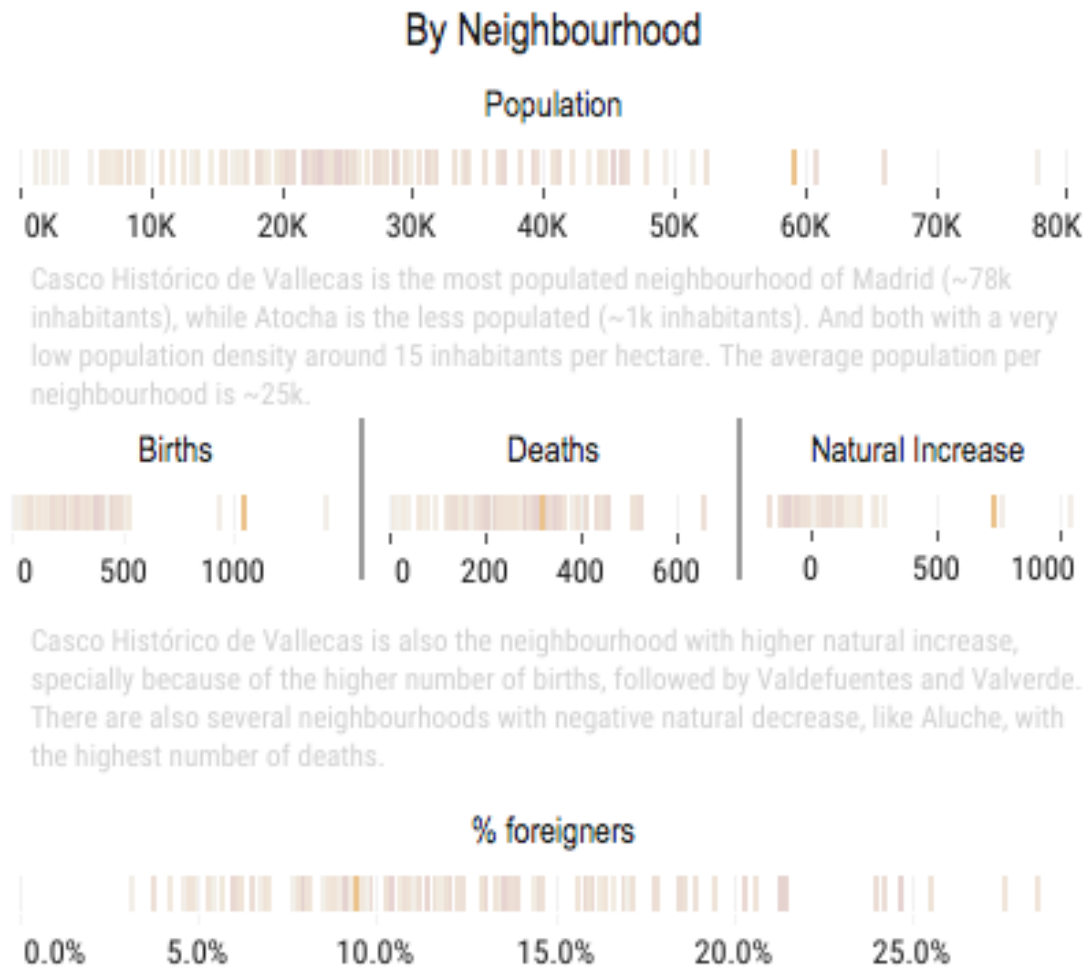

Districts / Neighbourhoods

Neighbourhood

From the dashboard I hovered over Madrid map and clicked on Valverde neighborhood.

After that as you see above on the top right I clicked on population, deaths, and births. It showed that Valverde neighborhood population is 59,080 out of 3.18M total population in Madrid city. With 1,038 birth cases over 313 death cases out of 29,737 total birth cases and 27,757 total death cases in Madrid in the year 2015. Which gives us 725

natural increase cases in the neighborhood population. I was able to compare between Valverde neighborhood and Madrid city through Madrid key metrics on the top left of the page as shown below.

Madrid key metrics		
Total Population	Districts	Neighbourhoods
3.18M	21	128
Births	Deaths	Natural Increase
29,737	27,757	1,980
...	-	...

Valverde neighborhood also has an average percentage of foreigners and it is about 10% of the neighborhood population while Pradolongo neighborhood comes with the highest

percentage of foreigners in a neighborhood and it is above 28% of the neighborhood population which is around 18% higher than Valverde neighborhood. I reached this info through the foreigners section on the top right of the page and then I hovered on the far right of the bar which showed each neighborhood foreigners percentage as shown below.
